

Cars Compound – Smart Customer Experience & Vehicle Management System

Proposal Overview

The purpose of this project is to transform Cars Compound from a traditional auto body shop into a technology-driven automotive service center by creating a complete digital customer journey.

Instead of customers repeatedly calling for updates or losing track of their vehicle's repair history, they will have a dedicated customer portal where they can upload damage, track repairs in real time, access complete service records, and receive intelligent maintenance reminders.

This system is designed to improve customer satisfaction, increase repeat business, reduce staff workload, and create a premium customer experience that differentiates Cars Compound from competitors.

Project Objectives

The proposed system will provide:

- AI-powered vehicle damage analysis
 - Digital customer registration
 - Customer Portal
 - Vehicle Repair Tracking
 - Vehicle Service History
 - Automated Maintenance Reminders
 - Customer Communication Automation
 - Internal Management Dashboard
-

Complete Customer Journey

Phase 1 – Customer Visits Cars Compound Website

A customer lands on the Cars Compound website.

They immediately see:

Get an Instant Damage Assessment

The customer can either:

- Upload photos of the damaged vehicle
- Book an inspection

- Contact Cars Compound
-

Phase 2 – AI Damage Analyzer

The customer uploads multiple images of the damaged vehicle.

The AI analyzes the uploaded images and identifies visible damage such as:

- Front bumper damage
- Rear bumper damage
- Fender damage
- Door dents
- Scratches
- Broken headlights
- Broken taillights
- Windshield cracks
- Paint damage
- Side mirror damage

The system then provides:

- Detected damage summary
- Estimated repair complexity
- Approximate repair duration
- Estimated repair cost range
- Recommendation to schedule an inspection

Example:

Vehicle Analysis Complete

Detected Damage:

• Front bumper cracked • Left headlight damaged • Minor hood dent

Estimated Repair Time:

3-5 Days

Estimated Cost:

\$1,400 – \$2,100

Final estimate will be confirmed after physical inspection.

The customer can then book an appointment directly.

Phase 3 – Appointment & Vehicle Registration

Once the customer arrives at Cars Compound:

The staff performs a physical inspection.

The estimate is finalized.

The repair order is created.

The system automatically creates:

- Customer Account
- Vehicle Profile
- Repair Case
- Unique Tracking ID

If the customer is new:

A secure account is created.

If the customer is existing:

The repair is added to the existing vehicle profile.

The customer receives:

- Login credentials
 - Tracking ID
 - Email confirmation
 - SMS confirmation
-

Phase 4 – Customer Portal

Customers can log in anytime using:

- Email
- Password

or

Tracking ID

After logging in, they can access their personalized dashboard.

Dashboard includes:

- Vehicle Information
 - Repair Status
 - Repair Timeline
 - Vehicle History
 - Previous Invoices
 - Uploaded Images
 - Repair Documents
 - Warranty Information
 - Future Maintenance Schedule
-

Phase 5 – Repair Tracking Portal

Every repair progresses through predefined stages.

The customer can see live updates.

Example Workflow:

Vehicle Received

↓

Inspection Completed

↓

Insurance Approval (if applicable)

↓

Parts Ordered

↓

Parts Received

↓

Body Repair

↓

Painting

↓

Drying & Finishing

Assembly

Quality Inspection

Road Test

Ready for Pickup

Each stage displays:

Current Status

Expected Completion Date

Technician Notes

Progress Percentage

Photos (optional)

Whenever the status changes, the customer automatically receives:

- Email notification
- SMS notification
- Optional WhatsApp notification

Example:

Your vehicle has successfully completed the Painting stage and has now moved to Assembly.

Estimated completion:

Tomorrow at 4:00 PM.

Phase 6 – Vehicle History System

Every repair performed at Cars Compound becomes part of the vehicle's permanent digital history.

The customer never loses service records again.

Vehicle Profile includes:

Vehicle Information

- Make
- Model
- Year
- VIN
- Registration Number
- Engine Type
- Mileage

Repair History

Each repair record stores:

Date

Damage Type

Work Performed

Parts Replaced

Parts Repaired

Paint Code Used

Insurance Company

Technician

Invoice

Warranty

Repair Images

Cost

Completion Date

Examples

January 2025

Front Bumper Replaced

OEM Honda Bumper Installed

Front Grill Replaced

Painting Completed

Warranty Active

April 2025

Left Fender Repaired

Dent Removed

Paint Correction

Warranty Active

August 2025

Ceramic Coating Applied

5-Year Protection

Warranty Active

The customer can view every repair ever completed by Cars Compound.

Phase 7 – Customer Dashboard

The dashboard becomes the customer's digital garage.

Features include:

Current Vehicle Status

Repair Progress

Upcoming Maintenance

Past Repairs

Invoices

Warranty

Repair Photos

Service Recommendations

Appointment Booking

Support Requests

Download Reports

Customers with multiple vehicles can switch between vehicles.

Phase 8 – Smart Maintenance Automation

The system automatically calculates future maintenance dates based on completed services.

Examples:

Oil Change

Completed:

January 1

Next Reminder:

July 1

Brake Inspection

Completed:

March

Reminder:

September

Wheel Alignment

Reminder:

After 10,000 km

Battery

Reminder:

After 2 years

Air Filter

Reminder:

After 12 months

Coolant

Reminder:

After 24 months

Transmission Service

Reminder:

According to manufacturer recommendations

Phase 9 – Automated Customer Follow-up

The automation engine continuously engages customers after service completion.

Example Timeline

Immediately After Delivery

Thank you for choosing Cars Compound.

Please let us know if everything meets your expectations.

After 3 Days

How is your vehicle performing?

Need any assistance?

After 7 Days

Please leave us a Google Review.

After 30 Days

Everything still working perfectly?

Contact us if you need any adjustments.

After 6 Months

Your last oil service was completed six months ago.

It may now be time for your next oil change.

Book your appointment today.

After 12 Months

Annual vehicle inspection is recommended.

Schedule your inspection now.

Seasonal Campaigns

Special detailing offers

Paint protection promotions

Wheel alignment campaigns

Brake inspection offers

Ceramic coating promotions

Customers remain connected with Cars Compound throughout the ownership lifecycle.

Internal Staff Dashboard

Cars Compound staff will have access to an internal dashboard where they can:

Manage Customers

Manage Vehicles

Create Repair Orders

Upload Repair Photos

Update Repair Status

Generate Estimates

Generate Invoices

Assign Technicians

Track Vehicle Progress

View Customer History

Manage Warranties

Schedule Maintenance

Send Notifications

Generate Reports

Administrative Benefits

Reduced phone calls asking for repair updates

Complete digital repair records

Higher customer trust

Improved customer retention

Professional service experience

Faster communication

Automated reminders

Improved Google Reviews

Better customer relationships

Future upselling opportunities

More organized operations

Higher brand value

Future Expansion Opportunities

This platform can later be expanded with:

- Insurance claim management

- Online payments
 - AI-powered repair estimates based on historical jobs
 - Customer loyalty program
 - Fleet management portal
 - Mobile application (iOS & Android)
 - AI customer support chatbot
 - AI voice receptionist
 - Digital inspection reports
 - Vehicle health scoring
 - Predictive maintenance using service history
-

Expected Business Impact

By implementing this Smart Customer Experience & Vehicle Management System, Cars Compound will move beyond being a traditional repair shop and become a technology-enabled automotive service provider.

Customers will enjoy complete transparency throughout the repair process, maintain a permanent digital history of their vehicles, receive proactive maintenance reminders, and stay connected with Cars Compound long after the repair is completed. This creates stronger customer loyalty, increases repeat business, improves operational efficiency, and establishes Cars Compound as a modern, customer-focused brand in the automotive repair industry.
